

Magnificent MINI Sheepadoodles

LEGAL TERMS AND CONDITIONS for PUPPY ADOPTIONS

Made on _____ between California Magnificent Mini Sheepadoodles
and _____ for the adoption of _____ Mini Sheepadoodle(s):
Male / Female Welped on _____ Dame _____

_____ All puppies are guaranteed by a reputable Veterinarian Doctor to be in **good general health and free from genetic defect** – both emotionally and physically – at the time of pick-up or delivery, and are guaranteed to be current on a **canine de-worming** schedule and current on their **“2 in 1” vaccinations**. [1) canine distemper and 2) parvovirus] at the time of pick-up or delivery.

_____ An individual **Health, Worming and Vaccination Schedule** will be presented to the **ADPOTING PARTY** for each puppy at the time of pick-up or delivery.

_____ The **ADOPTING PARTY HEREBY AGREES** to have his/her puppy **EXAMINED BY A REPUTABLE VETERINARIAN DOCTOR WITHIN 1 week** of the puppy's initial pick-up or delivery, and to contact **California MAGNIFICENT MINI Sheepadoodles** within that 1-week period, with any concerns regarding the health or well-fare of the puppy. Included in that exam is a suggested stool sample and testing for the very common giardia and coccidia often found in litters of puppies!

_____ The **ADOPTING PARTY** hereby agrees that any and all **expenses incurred** for canine delivery, transport, training, medicine, medical assistance (or for any other reason) will be completely at the **ADOPTING PARTY'S** expense!

_____ The **California MAGNIFICENT MINI Sheepadoodles** guarantees that all puppies are “vet checked” and free from **abdominal hernias** at the time of pick-up or delivery. NOTE: Because the abdominal muscles of puppies are very tender and vulnerable, picking a puppy up by the front legs or carrying them carelessly can cause **ABDOMINAL HERNIAS**. We guarantee your puppy to be hernia-free only at the time of pick-up or delivery by **California MAGNIFICENT MINI Sheepadoodles** to the **ADOPTING PARTY** contracted transporter.

_____ **California MAGNIFICENT MINI Sheepadoodles** hereby agrees to reimburse the **ADOPTING PARTY** for the full donation of any puppy proven by the examination of a certified Veterinarian Doctor to have any **genetic disease or genetic physical impairment** under the condition that the full details of the medical examination [complete with the Veterinarian Doctor's name, date of examination and specific diagnosis] be furnished to the **California MAGNIFICENT MINI Sheepadoodles** within 2 years of the puppy's whelping date. In any such case, the **ADOPTING FAMILY** must agree to have the puppy returned to the **California MAGNIFICENT MINI Sheepadoodles**.

_____ As the **ADOPTIVE PARTY**, I agree to get my darling puppy plenty of training to help them be the wonderful family member they were created to be! Starting today, I will teach my puppy not to bite and not to jump. We at **California MAGNIFICENT MINI Sheepadoodles** strongly encourage anyone who has not had a puppy in the recent past to hire a personal trainer to come into your house with your new puppy for a season... they can help train you to train your puppy! These are smart puppies and do extremely well with good training!

We 100% guarantee full refund for genetic disease, but we 100% don't refund for untrained unruly puppies!!

_____ All puppies are adopted out as **personal pets only**, and NOT FOR BREEDING PURPOSES. The **ADOPTING PARTY** hereby **agrees to neuter** any puppy – male or female – (at **ADOPTING PARTY'S** expense) **between 6 to 12 months** of the puppy's whelping date.

_____ **Socializing is KEY to a healthy puppy! From 8-12 weeks is the most important time in a puppy's life!! Please make sure and socialize daily with new sites, sounds and places! Include weekly toenail clipping and massaging toes and feet daily so they are ready for the groomer one day!**

_____ The complete donation for all puppies must be given prior to the pick-up or delivery of any puppy.
